## Experience

### Doum

Dec 2024 – Present

Backend Developer

- Developed scalable **backend solutions** for an on-demand services app, utilizing **TypeScript**.
- Optimized **system performance** and ensured seamless **front-end integration**.

### Insiden

Aug 2024 – Oct 2024

Full Stack Developer

- Developed and integrated features focusing on **performance**, **scalability**, and **user experience**.
- Streamlined **integration** and **deployment**, enhancing system efficiency and reliability.

### EditQuaser

May 2024 – Aug 2024

Full Stack Developer

- Designed and implemented **responsive front-end** and **scalable back-end** solutions
- Enhanced **user authentication**, **performance optimization**, and **system reliability**, improving the platform's user experience.
- Collaborated with the development team to ensure smooth deployments and achieve project milestones.

## Education

Ajay Kumar Garg Engineering College

Ghaziabad, Uttar Pradesh

Engineering - **7.6**

Maharishi Vidya Mandir

Prayagraj, Uttar Pradesh

Intermediate - **84.4%**

## Skills

- **Language:** C, Java, JavaScript, TypeScript
- **Frontend:** React.js, HTML, CSS, JavaScript, Tailwind CSS, Next.js (exploring)
- **Backend:** Node.js, Express.js, Appwrite, Firebase
- **Database:** MongoDB, MySQL
- **Tools & Platforms:** Git, Netlify, GitHub Pages, Versal, Postman
- **Other Skills:** Problem-solving, Responsive Design, API Integration

## Projects

### RBAC Task Manager

- Designed and developed a dynamic web application with **role-based access control**, **task assignment**, and **real-time progress tracking** to enhance team productivity.
- Implemented scalable **front-end** and **back-end solutions** using **React**, **TypeScript**, and **MongoDB**, ensuring type safety and efficient deployments.
- Optimized performance using **Tailwind CSS** for a sleek design and ensured cross-browser compatibility for a seamless user experience.

### ChitChat

- Built a **real-time chatting platform** with features for seamless user communication and connectivity.
- Developed **full-stack solutions** using **React**, **Node.js**, **MongoDB**, and **Socket.IO**, implementing **state management** with **Zustand** and integrating **file uploads** using **Multer**.

### Portfolio

- Developed a responsive **3D personal portfolio** using **Three.js** for rendering and animation, delivering an immersive user experience.
- Gained hands-on expertise in **3D rendering** and **animation techniques**, optimizing performance for seamless interaction across devices.
- Utilized **React** for a scalable, modular design, ensuring easy updates and a visually appealing interface.
